

SVYB DRIBBLE 10

WEEK 1 | HANDLE BASICS

A focused 10-minute ball-handling session. Move with control; this is not a race.

1 MINUTE - WARM UP

20 ball smacks (alternate hands), 20 waist wraps (10 each direction), and 20 figure-eight wraps through the legs (10 each direction).

9 MINUTES - DRILLS

Do each drill for 45 seconds, then take 15 seconds to rest or switch hands. Try to reach the target during the 45 seconds. If you reach it early, keep dribbling under control until the minute ends.

THE 9 DRILLS

1 Right-hand low dribbles Below the knee	50 dribbles
2 Left-hand low dribbles Below the knee	50 dribbles
3 Right-hand waist-high dribbles Between knee and waist	50 dribbles
4 Left-hand waist-high dribbles Between knee and waist	50 dribbles
5 Right-hand power pounds Firm, controlled dribbles	50 dribbles
6 Left-hand power pounds Firm, controlled dribbles	50 dribbles
7 Right-hand V dribbles Push the ball out and pull it back with the same hand	20 reps
8 Left-hand V dribbles Push the ball out and pull it back with the same hand	20 reps
9 Front crossovers Switch the ball from hand to hand in front	50 switches

Keep it safe and fun

Use a clear, flat space and keep your eyes up when you can. Take the 15-second rest between drills. If a move feels too difficult, substitute a simple front hand switch for the same number of reps.

Counting guide

One controlled ball bounce = one dribble. One complete push-out and pull-back = one V rep. One crossover = one switch from hand to hand. Parent/guardian: ask your player to show you one drill they practiced.

NEXT WORKOUT

The next workout will be posted next week!
